Discovering the Many Benefits of the Sharing Alliance

A Valuable Content Resource for Pharmaceutical, Biotech & Medical Device Compliance Professionals

Over the next several months the non-profit Sharing Alliance (formerly known as the PDMA Alliance) will be providing examples of the many educational resources we make available to our members, through both our annual Sharing Conference and our website, www.sharingalliance.org.

The Alliance is unique in that it relies on a largely volunteer board of your compliance peers. We gather information and high-value content on "best practices"; answer your questions specific to compliance challenges; and through the Alliance website, we share information that will help your company comply with federal, state, and local regulatory mandates. Simply stated, the Alliance is your vehicle for sharing, communicating and learning.

Specific content within the Members Only portion of our website includes:

- Compliance Resources and Training
  Recent Web News, Conference Presentations, Industry Insights, Training Modules, and much more...

- Interact with the Alliance
  Member Q&A Resource

- Federal, State and Local Compliance Updates
  A Compilation of Laws, Regulations and Notices

- Prescription Drug Marketing Act of 1987 (PDMA) and the Drug Supply Chain Security Act (DSCSA)
  Detailed information to help ensure compliance and protect the integrity of the Drug Supply Chain

If you're not already a member of the Alliance and you would like to access Members Only, register for the annual Sharing Conference here.

You will become a part of the compliance solution by attending our Sharing Conference. Registration provides automatic annual membership, with no additional dues or fees.

The primary focus of the Alliance is on ethics and compliance programs and issues. In that spirit, we recognize the critical importance of federal anti-trust laws and strictly adhere to the provisions they set forth.
