# Workshop Announcement

## DSCSA AND THE COMPLIANCE PROFESSIONAL

Presented by  
**Robert Celeste, Founder, Center for Supply Chain Studies**  
**Jill Feldman, Medac Pharma, AD, Quality & Compliance**

It's hard to believe, but the pharmaceutical industry is already two years into the implementation of the Drug Supply Chain Security Act (DSCSA). And just like the Prescription Drug Marketing Act (PDMA) tested our industry back in 1987, the DSCSA challenges the way we do business today by requiring commercial product traceability from the point of manufacture to the end user.

This spirited presentation will include an overview of the regulation, labeling, and current challenges, along with a look at what's coming next and why you will want to be prepared. Jill and Bob, both long-time and well-respected industry professionals, will explore the parallel processes between the sample and commercial product distribution, including reconciliation and accountability; expired product return or destruction; transaction history and serial number verification; post-market pharmacovigilance and recall management; and traceability of free goods used in hospitals and clinics. They'll end the session with discussion on some of the commercial applications of a 2D barcode being pursued that provides safety information to patients and helps commercial groups understand where the product is being used.

### Have you registered for the Sharing Conference this October?

Early bird rates are in effect now: [get more info here](#).

#### Already registered?

Forward this email to a colleague. When three people from the same pharmaceutical, medical device or biotech company attend, one more may attend for FREE.

Email: [mail@sharingalliance.org](mailto:mail@sharingalliance.org) for details.

*Vendors who provide compliance services and solutions to the life sciences industry, visit the [exhibitor section](#) for details on how you may participate, too.*

### Also at this year's Sharing Conference...

Robert Celeste will also be presenting  
**INTRODUCTION TO BLOCKCHAIN**  
during the speed session segment.
