

FAQs

What makes the Sharing Alliance™ unique?

Back in 1990, a small group of pharmaceutical compliance professionals met to wrestle with the newly established regulations under the Prescription Drug Marketing Act of 1987 (the PDMA). Our primary goal was to facilitate learning, understanding and sharing so that we could fulfill our critical compliance responsibilities. Today, almost 30 years later, our mission is the same, but it has become much broader and deeper as we have grown well past our original roots.
