Current Events - Opioids: Preventing Drug Diversion

Presented by
Joe Tomkiewicz
Teva Pharmaceuticals
&
Cathy Gallagher
IQVIA

The opioid epidemic is one of the deadliest public health crises in American history and one of the leading causes of death for Americans under the age of 50 years old. During this well-timed learning opportunity, our two experienced speakers will explore the history of the opioid epidemic and how we arrived at where we are today. This session will also examine how the opioid epidemic is impacting the pharmaceutical industry and cover some current legal activities being taken to combat it.

Time will be allotted for reviewing the results and responses to settlements of recent opioid lawsuits and what lies ahead for the industry.

Given the current regulatory environment surrounding the opioid epidemic, this workshop will certainly be one you won't want to miss. Get your questions ready!

The Sharing Conference™ is just a few weeks away! What are you waiting for?

WITH COMPLIANCE

This year's conference theme - Connecting Commercial Operations with Compliance - was created to address the relationship between commercial operations activities and the compliance factor.

We invite you to **take a look** at how compliance connects with many aspects of commercial operations, including Security & Investigations, Regulatory Affairs, Legal & Ethics and more.
