## SHARING CONFERENCE KEYNOTE ANNOUNCEMENT:

### **Understanding Peak Performance – The Culture of the World’s Most Successful Organizations Presented by Dave Mitchell Tuesday, May 17, 2022**

The Sharing Alliance is delighted to welcome back Dave Mitchell, founder of the Leadership Difference and well-known speaker and author. Dave’s “laugh and learn” style was a huge hit when he spoke to us several years ago and there’s no doubt that this year’s look at leadership and personal performance will be another don’t miss event.

Dave’s keynote will focus on the personal behaviors that are the foundation of the culture of the most successful organizations worldwide. Attendees will discover the qualities that predict peak performance. Notable in the content is that these are behaviors, processes, and approaches that are easy to replicate, not nebulous values that can be subjective and hard to manifest. Regardless of your role, these characteristics drive results while ensuring personal resiliency and sustainability.

**Later that day, Dave will be presenting a workshop:  
"Bob, you're muted" – How the Pandemic Changed Workplace Best Practices.**

Isolation, working from home, virtual meetings, and a myriad of other factors have forever re-shaped and re-prioritized the best practices of creating a peak performance environment. Attendees will learn about the importance of informal communication in a virtual work environment, how to better resolve conflict with fewer face-to-face interactions, and how to recognize, respond, and mitigate the influence of stress in the workplace of the future.

Plan to join us for these two special sessions by [registering for the Sharing Conference today](#). If you are already registered, please share this email announcement with an industry friend and/or colleague.
