GENERAL SESSION ANNOUNCEMENT

WHAT'S NEW FROM THE DEA DIVERSION CONTROL DIVISION

The Sharing Alliance is pleased to welcome Kim Daniels and Linda Stocum, DEA Staff Coordinators in the Liaison Section, to the Sharing Conference this year!

As many of you may know, the mission of DEA's Diversion Control Division is to prevent, detect, and investigate the diversion of controlled pharmaceuticals and listed chemicals from legitimate sources while ensuring an adequate and uninterrupted supply for legitimate medical, commercial, and scientific needs. Under federal law, all businesses that import, export, manufacture, or distribute controlled substances must register with the DEA and must comply with regulatory requirements relating to drug security and record-keeping for controlled substances.

These regulations can sometimes be as confusing to well-seasoned professionals as they are to those who are new to working with controlled substances. This session will provide conference attendees with an opportunity to hear what's new and get answers to questions they might find challenging.

Time will be allotted for a Q&A discussion. Questions will be taken during the presentation or may be submitted in advance of the session. Details on how to send in anonymous questions before the conference will be emailed to registered attendees in early May.
