GENERAL SESSION ANNOUNCEMENT

CMS Town Hall Event

With Members of the CMS Open Payments Program

The Sharing Alliance continues to cultivate communications between the industry and CMS by providing conference attendees with the space to have transparency reporting questions answered, directly from members of CMS' Open Payments Team.

Sharing Conference™ attendees will have the opportunity to pose their questions prior to the conference anonymously or in-person during the Town Hall meeting. Over the years, attendees have shared their appreciation for these Town Hall sessions because they provide a great way to get clarity on new or specific federal requirements. They also offer a platform for the industry to alert CMS to challenges manufacturers face when compiling required Federal reports. This is a special chance to interact directly with CMS in an open and comfortable setting and have your transparency-related questions discussed and answered directly by the agency.
