## The Case for For-Cause Audits

Presented By:

**Tina Posey**  
IQVIA

**Monique Thomas**  
Supernus Pharmaceuticals

Conducting a For-Cause audit is a requirement of the FDA's Prescription Drug Marketing Act (PDMA) and critical to ensuring a compliant Sample Accountability program.

For-Cause audits are a key component of a manufacturer or authorized distributors' sample distribution security and audit system.

So then, exactly, what is a "For-Cause" audit and why do we do it?  
Does your Compliance Program include these audits?  
Can you strengthen your existing program?  
How can you conduct effective and efficient For-Cause audits?

In this workshop, attendees will find answers to these challenging questions and more. Our speakers will review what information should be included in For-Cause audits and you'll hear recommended approaches and techniques for conducting For-Cause audits which will enhance your overall regulatory compliance efforts.

Additional highlights of this session will focus on the importance of trending sampling activity and how to identify the triggers that indicate the need to conduct a For-Cause audit. Time will be included for Q&A and workshop attendees will be offered an opportunity to share their own experiences if they wish. Lessons learned in conducting these audits as well as implications of conducting effective For-Cause audits during the pandemic will also be reviewed.
