## License Validation and Other Compliance Requirements Around Data

Presented By:

**Brad King**  
 Kowa

**Jennifer Valentine**  
 MedPro Systems

The complexities around license data validation can certainly feel overwhelming. However, our two well-prepared presenters are ready to explain why it does not have to be that way!

This workshop will offer a look at the value of investing in a defined license validation process for your organization to maintain compliance with regulations and internal requirements.

This open discussion will focus on:

- Overview of License Types
- Understanding License Compliance Use Cases–Federal and State
- Defining Your Validation Standards
- Acceptance Criteria and Managing Exceptions
- Vendor Engagement for License Data Acquisition
- Documenting Processes
- Educating Stakeholders
- Leveraging Validated License Data for your Business Needs

And, of course, there will be time allotted for the sharing of best practices and Q&A conversation.

Have you registered for the Sharing Conference yet? [REGISTER TODAY!](#)  
 You have? Great! Now please share this email with a colleague!

### Take advantage of the team discount!

When three people from the same pharmaceutical, medical device or biotech company attend, one more may attend for **FREE**.
