Sharing Conference™ Signature Sponsor **Conexus Solutions, Inc.** is proud to announce their participation in this year's Case Study Program with the submission:

Facilitating a Compliance Focused Commercial Solution for a Global Biotechnology Company

A global biotechnology company was looking for a solution to comply with evolving regulatory requirements and managing data from multiple sources in varying formats. It was a challenge to gather and assimilate HCP/HCO spend data from disparate sources into a single feed to their transparency reporting partner while remaining compliant. They had to do this while actively strategizing and growing their commercial operations.

While building an operational presence in the U.S., the company turned to Conexus Solutions, Inc. to help deliver a compliant solution.

**To receive the full case study and learn the results,
visit Conexus at booth #9.**

Conexus Solutions, Inc. provides end-to-end services and systems that let you outsource your commercial operations with confidence. We are purpose-built for small and mid-size pharmaceutical and life sciences companies, giving you solutions that are both best-in-class and cost-effective.

Our work is backed by decades of experience building and managing compliant commercial operations in the pharmaceutical and life sciences market. We are "The Team Behind Your Team".
