WORKSHOP ANNOUNCEMENT

DEA Controlled Substance Compliance: Overview and Updates

Join Lisa Butler, Sharing Alliance President and Director DEA/PDMA Compliance at Novartis Pharmaceuticals Corporation when she presents this in depth workshop on DEA Controlled Substance Compliance.

The mission of the US Drug Enforcement Administration (DEA) is to prevent, detect and investigate the diversion of pharmaceutical controlled substances from legitimate channels of distribution. To do so, the DEA regulates persons, companies, and other entities that manufacture, distribute, and dispense controlled substances. Attendees of this workshop will get an overview of the Controlled Substance Act, the DEA Regulations, and an understanding of what to do when the DEA shows up at their door. Also discussed will be the proposed modifications to suspicious order monitoring and any recent updates and/or changes to the DEA regulations.

During this interactive learning session attendees will have the opportunity to discuss their challenges and learn how other companies manage the expectations of the DEA. So come learn with your industry peers in a collaborative workshop that will surely be as engaging as it will be educational.

Early bird rates are expiring soon. Register today for the 31st Annual Sharing Conference and be part of our community of compliance professionals.
