Feeling distressed about the new Reporting Template for Connecticut?

Then don't hesitate to join notable industry leaders, Judy Fox and Allyson Knott, for a rousing discussion on this very timely topic.

Manufacturers were required to register for the first time with Connecticut by October 1, 2023 and registrations must be renewed before July 1, 2024.

During the renewal process, manufacturers are required to file a report that includes:

- The aggregate number of contacts such pharmaceutical sales representative had with prescribing practitioners and pharmacists;
- The specialty of each prescribing practitioner and pharmacist with whom such pharmaceutical sales representative made contact;
- Whether product samples, materials or gifts of any value were provided to a prescribing practitioner, practitioner's staff, or to a pharmacist; and
- An aggregate report of all free samples, by drug name and strength

Make plans to attend this new to the Sharing Conference workshop. Conversation will focus on a deep dive into the reporting template issued by the state of Connecticut, with discussion on some of the challenges facing manufacturers in complying with the reporting requirements by July 1.
