Are you familiar with the FDA's Inspection Guidance for the Enforcement of the Drug Sample Distribution requirements of the Prescription Drug Marketing Act (PDMA) compliance manual?

Join us at the Sharing Conference this May, where proficient PDMA Specialist Rick Hughes will be leading a workshop review of the inspection guidance update/replacement (March 2013) for the FDA Compliance Program Guidance Manual 7356.022 Investigations Performed under the Prescription Drug Marketing Act (PDMA).

This learning session will outline how the FDA conducts investigations of individuals, drug manufacturers, distributors, and other parties that may be involved in prescription drug sample theft, loss, falsification, or diversion. Discussion will also include the FDA's general guidance concerning inspection of firms for compliance with recordkeeping and monitoring systems required under the PDMA.

Recommendations will be presented on how to prepare for an inspection/audit. Mark your calendars and plan to attend to hear this valuable analysis of vital information.
