

Workshop Announcement!

Privacy Policies and Compliance: Where is All that Data Going?

Presented by:
Tracey Fama
Director, Ethics & Compliance Programs
Bausch Health Companies, Inc.

As companies continue to embrace digital methods to enhance and streamline internal operations, they are simultaneously exposed to significant risks on a daily basis. Sensitive data keeps piling up, going from person to person, department to department, while constantly increasing security risks of exposure.

In this workshop, topics will include establishing and maintaining privacy policies that protect an organization's sensitive information and ensure compliance with relevant regulations.

Whether privacy is considered part of your primary role within your company or not, protecting sensitive data for your company, your colleagues and yourself is everyone's responsibility.

Attend this workshop for an interesting discussion, and bring your questions for a lively Q&A on this important topic!
