## WORKSHOP ANNOUNCEMENT

### Why You MUST Read the Fine Print — Even if (or Especially if) AI Wrote it

Join us for the exciting start of the Sharing Conference on Wednesday, October 7, 2026, at 2:00 pm, featuring a special workshop led by Alan G. Minsk, Partner at Arnall Golden Gregory LLP and Legal Counsel to the Sharing Alliance. With his signature humor and sharp wit, Alan will break down what it really means to embrace AI and stay compliant — because in this industry, if you don't use AI right, you risk getting left behind (or worse: getting a Warning Letter from the FDA). He'll explore why AI outputs must always be subject to qualified human review, plus highlight common compliance pitfalls organizations must avoid and discuss what the FDA looks for when assessing AI use in cGMP activities. He'll also offer practical tips to help your organization craft an internal policy that ensures its use of AI is an asset, not a liability.
