The 34th Annual
Sharing Conference™

Compliance | Transparency | PDMA | OIG

Where Collaboration and Connection Happen

At the Sharing Conference, the most valuable resource in the room may be the person next to you.

This event was built around the exchange of compliance knowledge, best practices, and real-world experiences. Through workshops, open forums, panels, networking, and exhibit hall conversations, attendees don't just learn from presenters; they learn from each other, too.

The person at your table may have already solved the problem you're facing back at the office. You might catch the elevator with someone who has the contact you need. The colleague you meet in a workshop may become a go-to resource or professional mentor.

For more than 30 years, that spirit of collaboration has helped professionals across the pharma and biotech industries build stronger, more sustainable compliance strategies. And that sense of community is the very reason so many attendees return year after year.

So, this October, don't just attend – attend and connect!

Join us in Princeton, NJ, October 7-9, 2026.
