Operations**  
WITH COMPLIANCE

## WORKSHOP ANNOUNCEMENT

### DEA Regulations – Recent Updates and Changes

Presented by  
**Lisa Butler**  
Novartis Pharmaceuticals Corporation  
&  
**Joe Tomkiewicz**  
Teva Pharmaceuticals

Most of us are aware that the mission of the DEA is to prevent, detect and investigate the diversion of pharmaceutical controlled substances and listed chemicals from legitimate channels of distribution. As such, the DEA currently has several proposed rule changes planned that will impact the way companies currently do business.

Attendees of this workshop will learn about the modifications to the controlled substance quota approval process, the new single sheet DEA Form 222, suspicious order monitoring and several other proposed changes that may impact your day-to-day controlled substance activities.

Alliance President Lisa Butler and Alliance Board Member Joe Tomkiewicz will bring their extensive knowledge and insights to this important interactive learning session.

Workshop attendees will have the opportunity to discuss their own challenges and hear how other companies are adjusting to the proposed changes. So, come join your industry colleagues in a collaborative workshop that will surely be as engaging as it will be educational.

Have you registered for the Sharing Conference?

[REGISTER NOW](#)

#### Already registered?

Forward this email to a colleague. When three people from the same pharmaceutical, medical device or biotech company attend, one more may attend for **FREE**.

Email: [mail@sharingalliance.org](mailto:mail@sharingalliance.org) for details.

*If you are a vendor who provides commercial operations compliance services and solutions to the life sciences industry, visit the [exhibitor section](#) for details on how you may participate.*

Connecting  
**Commercial  
Operations**  
WITH COMPLIANCE

This year's conference theme – Connecting Commercial Operations with Compliance – was created to address the relationship between commercial operations activities and the compliance factor.

We invite you to [take a look](#) at how compliance connects with many aspects of commercial operations, including Security and Insights, Auditing and Monitoring, Regulatory Affairs, and more.
