WORKSHOP ANNOUNCEMENT

DSCSA Phase II – Interoperability Challenges

Presented by

Jill Feldman
Medexus Pharma

&

Bob Celeste
Center for Supply Chain Studies

The process of transitioning from the Drug Supply Chain Security Act (DSCSA) current Phase I requirements that went into effect 1/1/2015 to the electronic systems and processes required for Phase II interoperability going into effect November 23, 2023 will require significant, shared and collaborative efforts from all sectors of the pharmaceutical supply chain.

This presentation will examine the challenges posed by the DSCSA regulation, including the obstacles they face with the diverse solutions, technologies and architectures. How do the manufacturers, wholesalers and dispensers communicate the required information for product and stakeholder verifications without giving up company secrets like customers, markets and product distribution volumes?

We are excited to welcome back these two expert presenters to the Sharing Conference™ this year! Q&A will be offered to allow attendees time for discussion on this time-sensitive topic.

The Sharing Conference™ is next month! Have you registered yet?

WITH COMPLIANCE

This year's conference theme – Connecting Commercial Operations with Compliance – was created to address the relationship between commercial operations activities and the compliance factor.

We invite you to [take a look](#) at how compliance connects with many aspects of commercial operations, including Data Management, State Regulations, Transparency and more.
