Regulatory and Compliance

MedPro Systems, LLC

Florida Health Care Clinic Establishment Permit (HCCE) and the Ohio Terminal Distributor of Dangerous Drugs (TDDD) regulations impact your distribution of drugs to healthcare facilities and healthcare providers in these states. Are you aware of your obligations to comply with these complicated laws? Are your processes and systems designed to manage the relationships between healthcare facilities and healthcare provider licenses?

In this workshop, Jennifer Valentine and Alan Minsk will define these regulations, point out their similarities and differences, examine the risks of non-compliance, and discuss best practices to help you navigate the complexities of the Florida and Ohio healthcare facility and healthcare provider license data.

The Sharing Alliance™ is happy to announce this workshop as a part of this week's Virtual Sharing Conference™ lineup. Registration is open to commercial compliance and operations professionals throughout the pharmaceutical, biotech, and medical device industries, as well as to the consultants and sales/solutions providers who support them.

You can still register for day 2 and 3 of the virtual conference!
