WORKSHOP ANNOUNCEMENT

PAP and Free Goods Programs: Following The Rules Of The Road

Presented by
Andrew Weber
Bausch Health
&
Recie Bomar
KnippeRx Inc.

With more than 46 million uninsured Americans, and millions more considered under-insured, Patient Assistance Programs and other free goods programs have emerged in an effort to help patients obtain the medications they need.

For many pharmaceutical companies who offer these programs, the goal is to provide free or low-cost prescription drugs to indigent patients who qualify in the hope that it helps patients comply with recommended drug therapies.

In this workshop, our knowledgeable presenters will explain the similarities between PAP and Free Goods programs; explore best practices in implementing, managing and monitoring a program; and review vendor management, including auditing and oversight.

Q&A will offer attendees time for group discussion on this growing topic. Bring your questions, and plan on getting insightful answers!

REGISTER TODAY

Take advantage of the team discount!

When three people from the same pharmaceutical, medical device or biotech company attend, one more may attend for **FREE**.

Email: mail@sharingalliance.org for details.

If you are a vendor who provides commercial operations compliance services and solutions to the life sciences industry, visit the [exhibitor section](#) for details on how you may participate.

Connecting
**Commercial
Operations**
WITH COMPLIANCE

This year's conference theme – Connecting Commercial Operations with Compliance – was created to address the relationship between commercial operations activities and the compliance factor.

We invite you to [take a look](#) at how compliance connects with many aspects of commercial operations, including Product Promotions, Regulatory Affairs, Speaker Programs and more.
