Teva Pharmaceuticals

Marc Chester

When you think of the challenges to develop, launch and distribute a high-risk product, you are likely to immediately focus on the development and launch aspects. Distribution of a high-risk product, both commercial and samples, takes a significant amount of forethought to ensure that compliance aligns with sales and marketing.

Plan to join our two knowledgeable and experienced presenters as they take a look at what it takes to launch a high-risk product. They will provide a high-level overview of best practices in bringing high-risk products to market.

The Sharing Alliance™ is proud to announce this workshop as a part of this month's Virtual Sharing Conference™ lineup. Join us for 3 days of learning and sharing with presenters from FDA, DEA and CMS, along with top pharmaceutical, biotech and medical device companies, and expert service and solution providers. Registration is open to commercial compliance and operations professionals throughout the pharmaceutical, biotech, and medical device industries, as well as to the consultants and sales/solutions providers who support them.

The Virtual Sharing Conference is next week, are you registered yet?
